**Subject:** Concerns Re North Anna Early Site Permit

Dear Ms. Irons and Mr. Cushing,

On behalf of my family, neighbors and our many friends that use our Lake Anna shoreline homes, we have attached a letter to you regarding two serious concerns with the North Anna Early Site Permit on Lake Anna Cooling Lagoons.

Thank you for your time in addressing resident's concerns.

Dear Sir/Madam:

Thank you for your comments on the proposed Early Site Permit for the addition of third and fourth nuclear reactor units to Dominion Virginia Power Company's North Anna Power Station. This project proposal is the subject of two different review processes with two separate public hearings.

Please note that DEQ staff may **only** use the public comments made at the **Wednesday, August 16** hearing in developing its comments on the consistency of the proposed project with the enforceable policies of the Virginia Coastal Resources Management Program. DEQ staff may **not** use public comments made in the NRC hearing on August 15. However, DEQ staff will observe the NRC hearing. Similarly, NRC staff will observe the DEQ hearing on August 16.

### **DEQ Review Process**

The process administered by DEQ is the federal consistency review process, mandated by the Coastal Zone Management Act (Spotsylvania County, which abuts Lake Anna, and the North Anna River are in Virginia's coastal zone). Our purpose is to evaluate, with the aid of public comments, whether the proposed project (including the new cooling system for the third unit) would, if licensed by the Nuclear Regulatory Commission, be consistent with the enforceable policies of the Virginia Coastal Resources Management Program. Pertinent details:

DEQ public hearing on federal consistency:

**Wednesday, August 16, 2006**

**Time: 7:00 PM to 10:00 PM**  
**Information session: 6:00 PM to 7:00 PM**

**Place: Louisa County Middle School, Mineral, Virginia**

#### *Conduct:*

- DEQ hearing officer
- Statements by members of the public (time allotted to each speaker will be determined after sign-in)
- Questions and discussion **only** at information session

*Deadline for additional written comments to DEQ on consistency:*

**September 8, 2006**

*Deadline for DEQ comments on consistency to Dominion and to NRC:*

**November 3, 2006**

## **NRC Review Process**

The process administered by the Nuclear Regulatory Commission (NRC) is the environmental impact review process mandated by the National Environmental Policy Act. The purpose of the NRC, in preparing the Supplement to the Draft Environmental Impact Statement, is to evaluate all environmental impacts associated with the new cooling method, with the aid of public comments, before making a decision on the Early Site Permit.

Again, the Early Site Permit, if issued by the Nuclear Regulatory Commission, would allow Dominion to reserve the site, undertaking studies and related construction and site preparation, while the company decides whether to apply for a construction and operating license for the new reactor units. Pertinent details relative to the NRC process:

NRC public meeting on environmental impacts:

**Tuesday, August 15, 2006**

**Time: 7:00 PM**  
**Information session: 6:00 PM**

**Place: Louisa County Middle School, Mineral, Virginia**

*Conduct:*

- NRC hearing officer and other staff
- Statements by members of the public (typically 3-minute limit, additional material in writing)
- Questions and answers may be possible

*Deadline for additional written comments to NRC:*

**August 25, 2006**

I hope this information is helpful to you. Thank you for writing.

Sincerely,

Ellie Irons
