

TELEPHONE CONVERSATION RECORD

Date: Sept. 11, 2006

Name of person called or who called you:
Fred Badke, M.D., Radiation Safety Officer
Organization: Idaho Cardiology Associates

Incoming
 Outgoing

Phone No.: 208-322-1680

Subject: Discussion of training and experience requirements to add new authorized user to license.

Summary: Dr. Badke stated he will be mailing the NRC Form 313A to Dr. Hinchman's preceptor at the University of Washington and VA Medical Center. He anticipated this would take several weeks and agreed to temporarily void his amendment request if it could be reinstated without prejudice when he is able to submit the completed Form 313A. I confirmed we would reinstate and expedite the review and that he should remember to reference mail control #471030.

Signature of person documenting this conversation:

Jim Montgomery
