Subject: Hydrogeologic Investigation Reports

Exelon Generation Company, LLC (Exelon) and AmerGen Energy Company, LLC (AmerGen) conducted a fleet-wide groundwater assessment regarding tritium and other radionuclides. Hydrogeologic Investigation Reports that document the methodology and results of these groundwater assessments for our nuclear stations located in Illinois were provided on CD-ROMs to representatives of the NRC Region III office.

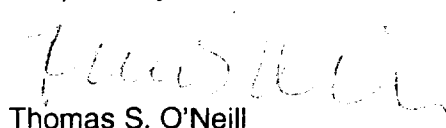

The non-public version of these reports includes figures that contain security-related sensitive information. Specifically, such figures contain details of structures and equipment located at the nuclear stations that Exelon and AmerGen consider sensitive, unclassified non-safeguards information. Each such figure has been marked with the following designation:

Accordingly, Exelon and AmerGen request this information be withheld from public disclosure in accordance with 10 CFR 2.390(d)(1), "Public inspections, Exemptions, Requests for Withholding." A version of these reports that is suitable for public disclosure was also provided on CD-ROM to representatives of the NRC Region III office.
