Washington, DC 20555-0001

Peach Bottom Atomic Power Station, Units 2 and 3  
Renewed Facility Operating License Nos. DPR-44 and DPR-56  
NRC Docket Nos. 50-277 and 50-278

Subject: Withdrawal of Request for Issuance of Conforming License Amendments

Reference: Letter from NRC, "Order Approving Transfer of Licenses and Conforming Amendments Relating to Peach Bottom Atomic Power Station, Unit Nos. 2 and 3, Hope Creek Generating Station, and Salem Nuclear Generating Station, Unit Nos. 1 and 2," dated May 30, 2006

In the referenced letter, the NRC approved license transfers involving the transfer of PSEG Nuclear LLC's ownership interests in Peach Bottom Atomic Power Station, Unit Nos. 2 and 3 (Peach Bottom), Hope Creek Generating Station (Hope Creek), and Salem Nuclear Generating Station, Unit Nos. 1 and 2, (Salem), and its licensed operating authorities for Hope Creek and Salem to Exelon Generation Company, LLC (Exelon). The license transfers were associated with the proposed merger of Public Service Enterprise Group (PSEG) into Exelon Corporation.

On September 14, 2006, Exelon Corporation and PSEG announced that the proposed merger was terminated. Accordingly, Exelon withdraws its request for conforming amendments to the Peach Bottom facility operating licenses to be issued and become effective at the time the merger is consummated.

If you have any questions about this letter, please contact me at (630) 657-2800.

Respectfully,

Kenneth A. Ainger  
Manager – Licensing
