Re: NRC License 29-30058-01

Dear Mr. Perkins,

03033246

In the past you provided assistance regarding additions to my NRC license (29-30058-01).

Two newly hired employees have identical training and experience as me in dealing with sealed source nuclear devices and I would like to have them added to my license as "Authorized Users". For a period of 3 months I will closely supervise their activities and will of course remain the primary contact for this license. I will annually review the requirements of the license with them and include this information in my *Annual Audit Report*. If added to the license, they will both be issued dosimetry devices which will be read periodically.

The employees are: Mr. Daniel O'Brien and Mr. Michael Ristaino.

Please do not hesitate to contact me if you have any questions regarding this request.

Sincerely,

Harry Bryant
