Subject: Regard Deficiencies in New Application <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>														
Summary: The Fuji application had a number of simple deficiencies and I wanted to make them aware of the NUREG 1556 Volume 7. I told Dr. Pizzonia about the NUREG 1556 Volume 7 and how it could help in developing his application and response. I wanted to make clear that the "Response from Applicant" section was a useful tool when preparing an application. He informed me that there might be a change in the location where the RAM might be handled and stored. I informed him that we would need the new diagram for the facility if this was the case.
