Dear Mr. DeLaBarre:

Enclosed is a copy of our February 10, 2005, letter regarding license application XCOM1170. Also enclosed is a copy of a revised application for this export received by the Nuclear Regulatory Commission (NRC) on October 2, 2006. The applicant requests that the description provided on NRC Form 7, Box 17 be revised to add the underlined information as follows:

“Top and bottom nozzles manufactured by Jedinstvo, including any additional spare and/or replacement parts thereof, which are ultimately used for Westinghouse fuel assemblies. The number to be returned in the future is not known. This is the only component to be exported back to Croatia.”

Your assistance in advising the Croatian government of these changes and obtaining the necessary assurances as previously requested will be greatly appreciated.

Sincerely,

/RA/
