

Note to file regarding mail control 139387
Newark Beth Israel Medical Center
29-00102-07
03020802

- 1) Regarding the request to add Sou-Tung Chiu-Tsao, Ph.D. as authorized medical physicist:

The licensee referenced Dr. Chiu-Tsao's listing as therapy physicist on a New York City radioactive materials license issued to Beth Israel Medical Center. New York licenses do not indicate specific authorizations for each physicist. Eli Furhang, Ph.D., Director of Radiation Oncology Physics for Beth Israel Medical Center in New York, confirmed to me that Dr. Chiu-Tsao acted as HDR AMP under that license within the past 7 years.

- 2) The request to add Rompin Shih, Ph.D. as AMP was separated out from this request, under mail control 139440. A deficiency e-mail was sent to Will Chen on 10/4/06.
