Dear Dr. Thompson:

Enclosed is Amendment No. 44 amending your NRC Material License No. 24-18655-01 in accordance with your request. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, that we have reformatted Subitem Nos. 7, and 9 and Condition No. 12 at this time to remove all references to exclude authorizations, including but not limited to authorizations such as "generators, and limited to cardiovascular procedures".

Please be reminded, however, that you are still bound by the restrictions imposed by the excluded authorizations contained in documents incorporated into your license by Condition No. 19 in your license.

Also, please note we have specified the manufacturer and model numbers for the sealed sources used under 10 CFR 35.400, and have specified possession limits in Subitem 8 for the materials permitted by 35.400 and 31.11.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
