Absolutely. I have a voice message in to Mr. Williams.

Jim,

I am currently available on the 12th and 13th, and have penciled those days in on my calendar.

Larry is out of the office today, but I will ask him to respond as soon as possible.

If the USGS rep is still interested in learning what is going on so that he can provide at least some general input, would NRC support his attendance at this meeting?

Tim

Item Type: Appointment

Start Date: Monday, 12 Jun 2006, 01:00:00pm (EDT)

Duration: 2 Days

Place: Indian Point

Dear subject matter expert,

Please let me know your availability for the above suggested onsite Indian Point inspection so we can coordinate with the licensee.

Thanks.

Regards,

Jim
