Subject: LAFARGE WELL, SAMPLING-JUNE 6, 2006

Greg:

On June 6, 2006 we will be sampling LaFarge wells using a LaFarge well sampling vendor. We have contracted with them to take quarterly water samples.

We understand the NRC will participate in this sample set as a split. I know you previously participated in the LaFarge sampling on Dec 6, 2006, however as you know we were unable to get well # 2 at that time. On June 6 we are prepared to get that sample plus wells 1 and 3.

We will contact you next week to line up the times and transportation details.

We will get you the LaFarge Safety film (30-45 minutes long) and a LaFarge Safety attendance sheet so you can access the LaFarge property in accordance with their procedures. Also we will get you the red safety vest.

If you have any questions please call me at 860-857-4980.

Thanks,

Ron Sachatello
