Re: Request for a public meeting in Boise on final determination of tank concentrations and future monitoring actions

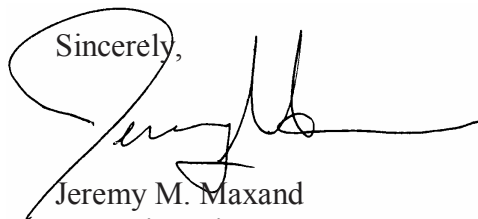

Dear Xiasong:

The Snake River Alliance is an Idaho-based grassroots group working through research, education, and community advocacy for peace and justice, the end to nuclear weapons, responsible solutions to nuclear waste and contamination, and sustainable alternatives to nuclear power. I submit this request on behalf of our dues-paying members and board of directors.

The Alliance is requesting a public meeting, preferably in Boise, to provide Idahoans with an update on the status of the Nuclear Regulator Commission (NRC) review of the Department of Energy's draft waste determination, the role of the NRC in monitoring, and how NRC and Idaho Department of Environmental Quality will coordinate efforts on ongoing and future high-level waste cleanup efforts at INTEC.

I appreciate your consideration and look forward to hearing from you. If you have questions or comments, please contact me at (208) 344-9161 or sra@snakeriveralliance.org.

Sincerely,

Jeremy M. Maxand
Executive Director
