Subject: <small>(NOTE: This will be used as the Documents Title in ADAMS)</small>	Inventory of Gauges
Summary:	<p>I called the licensee to verify the model numbers of the gauges. I updated their license the last time based on the inventory records on file, but they also had a Model 3450 that was not listed on the license.</p> <p>The RSO stated that they have transferred all of their gauges except only two gauges, a Model 3440 and an Humboldt 5001. So now they possess only two above mentioned gauges. I requested him to send an e-mail listing all the gauges that they currently possess.</p> <p>The RSO had been sending notes to RA every time they transferred a gauge. I told him that they are not required to send these notes but they must maintain records of such transfers on their files for our review.</p> <p>We did not control these notes as notifications in the past, but this time, LAT controlled it as a notification. I requested LAT to change it to an amendment request so that the license will be updated, instead of issuing a corrected copy.</p>
