Dear Ms Yu:

This correspondence is to explain our progress in naming a Radiation Safety Officer for our facility.

As you are aware, Radiologist Patrick Hines, MD our most recent Radiation Safety Officer is no longer practicing at this institution. We have been attempting to name Valery Kailka, MD, a staff Radiologist at Barnert Hospital as Radiation Safety but have run into documentation issues concerning his capability to fill this position.

Until such time as we can demonstrate his competence, we will name Orestes Sanchez, MD temporarily to this post. Dr Sanchez was Radiation Safety Officer at Bergenline Imaging in West New York, NJ. The USNRC license containing that information will be forwarded to you early next week.

I thank you for your help and cooperation in this matter and hope that we can complete the compliance issues quickly and have all of our required paperwork in order.

If you have any questions or comments, please contact me at 973-977-6755 at your convenience.

Very truly yours,

Ralph Cavallone BSRT

Administrative Director of Imaging Services

Radiation Safety OfficerRE: NYS Dept. of Health Radioactive  
Materials License No. 2833  
DH No. 98-281

Dear Dr. Small:

Enclosed is Amendment No. 12 to New York State Department of Health Radioactive Materials License No. 2833, which removes Jonathan Fields, M.D. from the license, and adds Gary Leavitt, M.D., as an authorized user for diagnostic radiopharmaceutical procedures. On the license that you referenced, #1710-1, Crouse Hospital, Dr. Leavitt is not authorized for radiopharmaceutical therapy procedures. Additional information is required before he may be authorized for therapy procedures (subitem C on your license). Please refer to Radiation Guide 10.1, Rev. 2, Appendix A-1, section 5 for a description of the requirements necessary to be authorized for radiopharmaceutical therapy procedures.

Also, as requested, Richard Rozanski, M.D., and you have been authorized for subitems A through E on your license.

If I may be of assistance, please contact this office at 518/458-6485 or:

New York State Department of Health  
Bureau of Environmental Radiation Protection  
Radioactive Materials Section  
Two University Place, Room 375  
Albany, New York 12203

Sincerely,

Mark Virgil  
Associate Radiological Health Specialist
