SUBJECT: BARNERT HOSPITAL, LICENSE AMENDMENT, CONTROL NO. 139201

Dear Mr. Orlando:

This refers to your license amendment request dated July 21, 2006. Enclosed with this letter is the amended license.

This amendment authorizes Dr. Sanchez as your Radiation Safety Officer (RSO). His previous authorizations as RSO and authorized user (AU) have been restricted to material permitted by 10 CFR 35.100 and 35.200. Therefore, please assure that Dr. Sanchez receives training in radiation safety, regulatory issues, and emergency response for use of material permitted by 10 CFR 35.300 and 35.400. Also note that we have not received all required documentation to authorize Dr. Kalika as an AU at this time. You may resubmit the request at a later time when you have all required documentation.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).
