Subject: 2.206 Petition Status - Sequoyah Fuels

Dear Mr. Fliegel:

DOC. 40-8027

As promised, Mr. Hammons and I commenced the necessary review of documents to determine compliance with Section III D of the Settlement Agreement concerning the 2.206 Petition. This provision hinges on whether the Groundwater Monitoring Plan (GWMP) and the Groundwater Corrective Action Plan (GWCAP) are both "revised in accordance with this Agreement". This requires comparison of the Plans with terms of the Agreement.

I have pulled our files on these Plans and I have also done some preliminary checking on ADAMs to make sure I have all the documents. Mr. Hammons is in the process of moving his office and their files are not easily accessed right now.

To be sure we have the latest on the GWCAP, we ask that Mr. Gutterman advise us of any revisions or documents submitted in 2006.

Once we are certain we have all documents and the latest versions of the GWMP and GWCAP, we can complete the comparison of the terms of the Agreement and the GMP and GWCAP.

We do appreciate the reminder that this needs to be resolved and will make every attempt to do so without unnecessary delay.

Sincerely,

Jeannine Hale
