

November 14, 2006

Robert R. Loux, Executive Director  
Agency for Nuclear Projects  
Office of the Governor  
State of Nevada  
1761 E. College Parkway - Suite 118  
Carson City, NV 89706

SUBJECT: U.S. DEPARTMENT OF ENERGY PRESENTATION ON CR-6278,  
REQUIREMENTS MANAGEMENT ROOT-CAUSE ANALYSIS

Dear Mr. Loux:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am responding to your letter of June 21, 2006, to Chairman Klein, about U.S. Department of Energy (DOE) Yucca Mountain Project management issues. You included a presentation entitled "CR-6278 Requirements Management Root-Cause Analysis," dated November 2005.

In your letter, you state that you do not believe the NRC staff has either seen or evaluated the contents of the presentation. Let me assure you the NRC staff is well aware of the issues described in the presentation. Three reports by our On-Site Licensing Representatives in Las Vegas<sup>1</sup> and three presentations made at NRC/DOE quarterly management meetings<sup>2</sup> discuss the subject analysis, related condition reports, and corrective actions undertaken in response. As part of our prelicensing activities, the NRC staff will continue to monitor aggressively the identification of the root causes, and the corrective actions DOE is taking.

We appreciate you bringing this information to our attention. If you have further questions or comments, please contact Mr. Lawrence E. Kokajko of my staff, at 301-415-7275.

Sincerely,

/RA/

Jack R. Strosnider, Director  
Office of Nuclear Material Safety  
and Safeguards

---
