Dear Mr. DeLaBarre:

Enclosed is an application for a license (XSNM03472), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium to Japan for use as reload fuel in the Hamaoka Units 4 and 5 nuclear power reactors. Assurances from Japan, that the material will be subject to all of the terms and conditions of an agreement for cooperation, are required. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that the material is of Australian, Canadian, Chinese and Uzbekistani origin, converted in the United States, enriched in the U.S. and Russian and reconverted in the U.S. It, thus, has Australian, Canadian, and possibly Chinese obligations.

Sincerely,

/RA/
