P.O. Box 817
La Crosse, WI 54602-0817

SUBJECT: LA CROSSE BOILING WATER REACTOR (LACBWR) MASTER INSPECTION
PLAN - FISCAL YEAR (FY) 2007

Dear Mr. Berg:

In accordance with NRC Manual Chapter 2561, "Decommissioning Power Reactor Inspection Program," the NRC Region III staff and management have developed a Master Inspection Plan (MIP) for LACBWR. The plan is based on your current performance and schedule of significant decommissioning activities planned for the site for October 2006 through September 2007 (FY2007). The plan outlines how we intend to focus our Regional inspection resources to address significant ongoing decommissioning activities.

Because the FY2007 MIP is based, in part, on your proposed schedule of significant decommissioning activities for FY2007, the plan and the focus of NRC inspection activities may change to reflect a change in your planned decommissioning activities or your performance. In order to ensure that the FY2007 MIP remains current, we request that you keep the Decommissioning Branch staff informed of any significant changes in your proposed schedule of decommissioning activities. You will be informed of any significant changes to the LACBWR FY2007 MIP.

We currently project the Region will conduct four inspections at LACBWR during FY2007. The inspections will be focused on your activities associated with the removal of the LACBWR reactor pressure vessel. The following is a list of the inspection procedures we expect to use during our inspections. The specific procedures used during each inspection will depend on the specific decommissioning activities being conducted. Additional inspection procedures may be used or inspections conducted if decommissioning activities warrant.

Inspection

Procedure Inspection Procedure Title

IP 36801	Organization, Management and Cost Controls
IP 37801	Safety Reviews, Design Changes, and Modifications
IP 40801	Self-Assessment, Auditing, and Corrective Action
IP 60801	Spent Fuel Pool Safety
IP 62801	Maintenance and Surveillance
IP 71801	Decommissioning Performance and Status Review
IP 83750	Occupational Radiation Exposure

Inspection Procedure Inspection Procedure Title

- IP 84750 Radioactive Waste Treatment, and Effluent and Environmental Monitoring
- IP 86750 Solid Radioactive Waste Management and Transportation of Radioactive Materials

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

We will gladly discuss any questions you may have regarding these inspection plans. If you have questions, please contact Dr. Peter Lee of my staff at (630) 829-9870.

Sincerely,

/RA/

Jamnes L. Cameron, Chief
Decommissioning Branch
