Dear Mr. Cushman:

Enclosed is Amendment No. 03 to your NRC Material License No. 24-32318-01, in accordance with your request. Please note that this amendment, in part, deletes from License Condition 10, your former facility located at 743 Spirit 40 Park Drive, Suite 232, Chesterfield, Missouri, as a location of use. It also authorizes its release for unrestricted use, based on data and information you provided, demonstrating that it meets NRC criteria for release. Also, please note that this amendment corrects the erroneous license number and docket number as shown on pages two and three of the original license and both amendments, as previously issued. Please note that the changes made to your license are printed in **bold** font.

Please review the enclosed document carefully. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
