ATTN: Ron Ralph
Materials Security and Industrial Branch

REF: Black Castle Mining-Homer III Plant; Radioactive Material License Application

In following your request for additional information and discussions with David Swindell of Energy Technologies Inc., I would like to provide the following information. Your assistance with our application is greatly appreciated.

1. The gauge(s) to be provided consists of a generally licensed DGA-410 and a non-regulated microwave provided by Energy Technologies Inc. and neutron activation gauge (provided by Analyzer Systems Inc.) which this application pertains.
2. Training is provided by ETI/ASYS for their respective equipment.
3. Radiological service is provided by ETI/ASYS for their respective equipment and in accordance with their license.
4. Massey Energy is currently licensed by the USNRC for possession of this equipment at Alex Energy (Edwight) and Endurance Mining (West Cazy).

Should you need additional information, please contact me at (304) 837-3520

Sincerely,

Philip Marsh
President
