Dear Mr. Jacobsen:

This refers to your October 15, 2004, letter providing this office with Battelle's final status survey report for the sanitary sewer line beneath Lake Battelle and the Lake Battelle Dam. My decommissioning staff has reviewed the referenced information, and has concluded that the information is adequate to demonstrate acceptability for unrestricted release of the former sanitary sewer line, as specified in Title 10, Code of Federal Regulations (CFR), Part 20, Subpart E. We have no further questions regarding this matter. The referenced information is to be maintained pursuant to 10 CFR Part 30, Sections 30.35, "Financial Assurance and Record Keeping for Decommissioning," and Section 30.36, "Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas."

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Please note that on October 25, 2004, the NRC terminated public access to ADAMS and initiated an additional security review of publicly available documents to ensure that potentially sensitive information is removed from the ADAMS database accessible through the NRC's web site. Interested members of the public may obtain copies of the referenced documents for review and/or copying by contacting the Public Document Room pending resumption of public access to ADAMS. The NRC Public Documents Room is located at NRC Headquarters in Rockville, MD, and can be contacted at (800) 397-4209 or (301) 415-4737 or [pdr@nrc.gov](mailto:pdr@nrc.gov).

If you have any questions regarding the above, please do not hesitate to contact me, or Mike McCann at (630) 829-9821, or (630) 829-9856, respectively.

Sincerely,

Kenneth G. O'Brien, Chief  
Decommissioning Branch  
Division of Nuclear Materials Safety
