Summit, NJ 07901

**SUBJECT: MARK KRELL, M. D., REQUEST FOR ADDITIONAL INFORMATION
CONCERNING APPLICATION FOR AMENDMENT TO LICENSE, CONTROL
NO. 139489**

Dear Dr. Krell:

This is in reference to your letter dated September 13, 2006 requesting to amend Nuclear Regulatory Commission License No. 29-31036-01. In order to continue our review, we need the following additional information:

1. In support of your request to authorize Dr. Claire G. Boccia for materials permitted under 10 CFR 35.200, please provide one of the following, as applicable:
 - a. documentation that Dr. Boccia is/was an authorized user as described in 10 CFR 35.57, by submitting the previous license number (if issued by NRC) or a copy of the license (if issued by an Agreement State) or a copy of the permit issued by an NRC or Agreement State broad scope licensee on which the Dr. Boccia was specifically named as an authorized user for the uses requested; OR
 - b. a copy of the certification(s) for the board(s) recognized by NRC as described in 10 CFR 35.290(a), and as applicable to the use requested; OR
 - c. documentation that Dr. Boccia is an authorized user under 10 CFR 35.390 (as described in 10 CFR 35.290(b)) by providing the license number (if issued by NRC) or a copy of the license (if issued by an Agreement State) or a copy of the permit issued by an NRC or Agreement State broad scope licensee on which the Dr. Boccia was specifically named as an authorized user for 10 CFR 35.390; OR
 - d. (1) a description of Dr. Boccia's work experience, under the supervision of an authorized user that meets the requirements of 10 CFR 35.290. The description should include the activities listed in 10 CFR 35.290(c)(1)(ii). Please note that the letter dated May 22, 2006, attached to your request, adequately provides a description of the training required as described in 10 CFR 35.290(c)(1)(i), but does not provide sufficient detail regarding

M. Krell
Mark Krell, M. D.

2

work experience or the authorized user under whom such experience was obtained; AND

- (2) a written attestation, signed by a preceptor authorized user who meets the requirements of 10 CFR 35.290 or 35.390, that Dr. Boccia has satisfactorily completed the requirements in 10 CFR 35.290(a)(1) or (c)(1). Please note that the letter dated March 28, 2006, attests that Dr. Boccia completed training that meets the requirements for Level 2 training in the ACC/ASNC COCATS Guidelines, and does not refer to the training requirements of the NRC.

2. In reviewing past licensing documents, it appears that you requested that the license be issued to Mark J. Krell, M.D. However, the license was issued to Mark Krell, M.D., which is the same way the name appears on your letterhead. Confirm if you wish the license to remain as it is, or if it should be corrected to "Mark J. Krell, M.D."

NRC Form 313A (enclosed) may be used to document this information. Please note that if the board certification, or training and experience, was received more than 7 years ago, evidence of recentness of training in accordance with 10 CFR 35.59 must also be submitted.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Toolkit Index Page**. Or you may obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-888-293-6498. The GPO is open from 7:00 a.m. to 8:00 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 139489. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5040.

If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application.

Sincerely,

Original signed by Elizabeth Ullrich
