Dr. Mohamed ElBaradei, Director General
International Atomic Energy Agency
Wagramer Strasse 5, P.O. Box 100
A-1400 Vienna
Austria

Dear Dr. ElBaradei:

It was a great pleasure to meet with you during the IAEA General Conference. This was my first visit to the IAEA as Chairman of the U.S. Nuclear Regulatory Commission, and I benefitted from the informative discussions I had with you and other members of the IAEA Secretariat.

As you know, this is an exciting and pivotal time for the United States nuclear industry and, it seems, for nuclear energy on a global level. We share a common belief that a strong regulatory infrastructure is the cornerstone to a safe, secure and successful nuclear program, and the NRC will continue to participate in international activities working toward this objective. In the coming months, as you evaluate candidates to replace Ken Brockman as Director of the Division of Nuclear Installation Safety, I urge you to consider Dr. William Travers, one of NRC's finest and most able managers.

I look forward to maintaining a fruitful, open dialogue with you.

Sincerely,

/RA/
