Summary:	<p>In a letter dated 8/14/06, Somerset Hospital requested the addition of Drs. Baker and Ferguson. The licensee requested that Dr. Baker be added for I-131 for the treatment of hyperthyroidism and Dr. Ferguson for all uses of I-131.</p> <p>An ADAMS search revealed that Dr. Ferguson was listed on 45-19782-01 for 35.100; 35.200; and I-131 for hyperthyroidism and Dr. Baker was listed on 37-01873-01 for 35.100; 35.200 and I-131 for imaging and localization. The licensee provided a preceptor form for Dr. Ferguson stating that he had performed 18 thyroid carcinoma treatments.</p> <p>Verified with the licensee that Dr. Baker should be added for 35.100 and 35.200 and informed them that he may not be listed for I-131 for the treatment of hyperthyroidism. The licensee stated that they had requested that in error. Therefore, Dr. Baker will be added for 35.100; 35.200; and I-131 sodium iodide for imaging and localization. Dr. Ferguson will be added to the license for 35.100; 35.200; and Oral administration of sodium iodide iodine-131.</p>
