

Note to file regarding mail control 139470
Northampton Hospital Corp., d/b/a Easton Hospital
37-09938-01
03003119

This request was initially submitted as mail control 138833, then was voided after licensee failed to provide all of the requested information. The current request is a resubmission of same request to change RSO to Mark Liddington:

- Since the time of original submission of request in mail control 138833, Mark was named RSO on license 37-31178-01, which is limited to 35.100 and 35.200.
- Documentation submitted with the current request is sufficient to name Mark as RSO on a license with 35.300.
- This amendment removes 35.400 and IVB from the license.

Licensee's commitments regarding appointment of consultant as RSO were included in the original request for mail control 138833 (letter dated May 4, 2006) and were not repeated in the current request. As a result, I am tying down the letter dated May 4, 2006.
