RE: NRC License # 45-25404-01

03034506

Dear Ms. Ullrich:

With regard to our conversation and your following email dated October 11, 2006; here is the requested information:

Extensive swipe tests were performed on September 28, 2006 and September 29, 2006 in the laboratories at 4851 Lake Brook Drive, Glen Allen, VA. Swipe tests were counted in a Beckman LS 7000 scintillation counter on September 29, 2006. Swipe tests indicate that laboratory rooms approved for radioactive use by our license are free of contaminating radioactivity.

Laboratory rooms approved for radioactive use account for approximately 3,000 sq. ft. of the building's total 70,000 sq. ft. at 4851 Lake Brook Drive, Glen Allen, VA. Laboratory L130-131 = approximately 2,580 sq. ft.; Laboratory L138 = approximately 300 sq. ft.; Laboratory L143 = approximately 120 sq. ft.

The facility at 4851 Lake Brook Drive, Glen Allen, VA is located in a suburban environment, about 12 miles west of Richmond City. The building is one of many located in a very large office park.
