Archie,

The following was inadvertently excluded from the report. It provides the information NLI needs to respond to the non-conformances. Since we erred by not providing this information when the report was issued, the 30 day clock will start upon your notification today October, 17, 2006. However, a response as soon as practical would be appreciated.

Please provide a written statement or explanation to the U.S. Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, D.C. 20555-0001, with a copy to the Director, Division of Engineering, Office of Nuclear Reactor Regulation, within 30 days of the date of the letter transmitting this Notice of Nonconformance. This reply should be clearly marked as a "Reply to a Notice of Nonconformance" and should include: (1) a description of steps that have been or will be taken to correct this item; (2) a description of steps that have been or will be taken to prevent recurrence; and (3) the dates your corrective action and preventive measures were or will be completed.

Thanks very much and my apologies for the error.
