A & G Coal Company
Job # 9 - Prep Plant
Po Box 1010
Wise, VA 24293

Ref: Radiation Protection Program Audit
(Kay Ray Density Gauge)

ATTN: Darrell Davis, Plant Foreman

As requested, Energy Technologies Inc. has performed a Radiation Protection Audit at your coal preparation plant.

The results and deficiency recommendations are attached.

The following actions have been taken:

- ① Radiation Survey performed and documented.
- ② Leak Test, Shutter Test, and Physical Inventory were performed.
- ③ Radiation Safety Training was provided to site staff.
4. NRC Form 3 "Notice to Employees" was provided. (Please Post in Plant Office)
5. Radiation Area Signs posted at gauge.

Please file all documents in the plant office for future NRC inspections.

Please contact us if you have additional needs or questions.

Sincerely,

David Swindell, President, RSO
