Re: RSO Amendment to License #45-09355-02 03006584

Sir:

We have had a recent re-structuring at our Applied Extrusion Technologies, Inc. Covington VA plant site. Our RSO for the plant was involved in this re-structuring. We are in the process of having another person trained in Madison, Wisconsin on Oct. 23, 2006 at Engelhardt & Associates, to assume the RSO role. In the interim period until we can get the Covington plant specific license #45-09355-02 amended, Leonard Burks, who has been the RSO backup at the plant for the last five years will assume the responsibilities for overseeing the day to day Radiation fixed gauge usage at the plant. Mike Wade is the person that will be the site RSO after his training and Leonard Burks would continue as his backup person when the license is amended in early November 2006.

Sincerely,

A handwritten signature in black ink, appearing to read 'Rob Benevento', written over a horizontal line.

Rob Benevento
Site Manager

This is to acknowledge the receipt of your letter/application dated

10/11/2006, and to inform you that the initial processing which includes an administrative review has been performed.

Amendment 45-09355-02 There were no administrative omissions. Your application was assigned to a technical reviewer. Please note that the technical review may identify additional omissions or require additional information.
