Additional feedback on topics of discussion for meeting with ANR on Thursday.

>>> "Gjessing, Catherine" <Catherine.Gjessing@state.vt.us> 08/07/2006 4:09:45 PM >>>
Hi,

I thought it might be helpful to have a tentative agenda for our upcoming meeting on 8/10. Here is my draft agenda - please let me know if you have any suggestions or additions.

Introductions

NRC/Argonne - overview of the EIS process & the scope of the relicensing EIS: Explanation of the Sustainable Fisheries/NOAA requirements

ANR - Status of the NPDES permit process and litigation

Essential Fish Habitat Discussion

Generic EIS - category 1 v. category 2

EIS issues

- * Issues 18, 19, 20, 23, 24, and 28 through 30 (Thermal plume barrier to migrating fish, Premature emergence of aquatic insects, Losses among organisms exposed to sublethal stresses, Stimulation of nuisance organisms, Entrainment, Impingement, and Heat shock)
- * Issues 43 and 46 (Bird collisions).
- * Issue 45 (Power line right of way management).
- * Issue 75 (Design-basis accidents).

- * Issue 87 (Waste Management).
- * Issue 89 (Water Quality).

Design Basis Concerns

I expect Vt Agency personnel may have some general questions about the role of VANR in this process. In addition, there are some issues which appear to be identical but are identified as both Category 1 and 2. What are the differences between these issues?

Please feel free to contact me with any questions or concerns you may have. I will see you later this week.

Sincerely,

Catherine Gjessing
