Gentlemen:

In the Matter of) Docket Nos. 50-327
Tennessee Valley Authority) 50-328

**SEQUOYAH NUCLEAR PLANT UNITS 1 AND 2 - NRC ORDER EA-06-137
REQUIRING COMPLIANCE WITH KEY RADIOLOGICAL PROTECTION
MITIGATION STRATEGIES**

This letter is in response to NRC's Order dated June 20, 2006, that required implementation of certain key radiological protection mitigation strategies to be incorporated into the plant security plan, safeguards contingency plan, guard training and qualification plan, and/or emergency plan, as appropriate. Subsequent to the Order, NRC issued a letter dated August 28, 2006, indicating that NRC had determined that the acceptance of the following license condition would be sufficient to satisfy the Order's requirements:

[Licensee] shall implement and maintain all Actions required by Attachment 2 to NRC Order EA-06-137, issued June 20, 2006, except the last action that requires incorporation of the strategies into the site security plan, contingency plan, emergency plan and/or guard training and qualification plan, as appropriate.

TVA agrees to have the SQN Operating Licenses amended to include the above license condition.
