Vogtle Electric Generating Plant  
Regulatory Commitment to the  
Response to Generic Letter 2003-01 – Control Room Habitability

Ladies and Gentlemen:

On June 12, 2003, the NRC issued Generic Letter (GL) 2003-01, "Control Room Habitability," requesting the submittal of information that demonstrates that the control room at each plant complies with the respective plant's current design and licensing bases and applicable regulatory requirements, and that suitable design, maintenance, and testing control measures are in place to ensure continued compliance. By letter dated August 4, 2003, Southern Nuclear Operating Company (SNC) submitted a proposed alternative course of action, including a schedule and associated justification, for developing responses to GL 2003-01 information requests. Letter dated June 16, 2004 provided SNC's response to GL 2003-01 information requests for the Vogtle Electric Generating Plant (VEGP).

During a telephone call on October 12, 2006, the NRC asked SNC to commit in writing the action to submit a proposed license amendment following NRC approval of the Technical Specification Task Force (TSTF) - 448. This letter is to inform the NRC that SNC is making a regulatory commitment to complete this action.

(Affirmation and signature are on the following page.)

Mr. D. E. Grissette states he is a Vice President of Southern Nuclear Operating Company, is authorized to execute this oath on behalf of Southern Nuclear Operating Company and to the best of his knowledge and belief, the facts set forth in this letter are true.

The NRC commitment contained in this letter is provided as a table in Enclosure 1. If you have any questions, please advise.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Don E. Grissette

Sworn to and subscribed before me this 20<sup>th</sup> day of October, 2006.

  
Notary Public
