Mail Control No. 139158

Dear Dr. Smith,

Walt Robinson asked me to contact you regarding the Cesium-137 sources transferred to Barnwell. Barnwell indicates that the manifest prepared by Bionomics for Reading Hospital states that the waste was comprised of 10 sources. Since you believe you disposed of 23 sources, please provide:

- 1) A statement signed by you, the RSO, and management indicating that 23 cesium-137 brachytherapy sources were transferred to Barnwell through Bionomics.
- 2) The original activity of the cesium-137 sources and their calibration date(s).

You may fax this information to me at 610-337-5269. Please reference Mail Control No. 139158 in your response.
