ALL AGREEMENT STATES, NEW JERSEY, PENNSYLVANIA, VIRGINIA

NOTIFICATION OF UPCOMING IMPEP TEAM MEMBER TRAINING (FSME-06-098)

Purpose: To inform you of the upcoming Integrated Materials Performance Evaluation Program (IMPEP) Team Member Training and to solicit interested participants.

Background: The Office of Federal and State Materials and Environmental Management Programs (FSME) is soliciting interest from the Agreement States for IMPEP review team members and Organization of Agreement States (OAS) Liaisons to the Management Review Board (MRB). Program directors should submit names of their staff interested in participating on IMPEP review teams to the contact person below via e-mail. Any Agreement State staff member is eligible to participate in IMPEP as long as they can meet the criteria to be a principal reviewer for at least one IMPEP performance indicator, as described in U.S. Nuclear Regulatory Commission (NRC) Management Directive 5.10, "Formal Qualifications for Integrated Materials Performance Evaluation Program (IMPEP) Team Members." Agreement State staff members interested in participating in IMPEP are invited to attend the IMPEP Team Member Training on January 23-24, 2007, at the NRC Professional Development Center in Bethesda, Maryland.

The IMPEP Team Member Training in January will also serve as refresher training for existing IMPEP team members. In accordance with the new policy for IMPEP refresher training, only IMPEP team members who are participating in an IMPEP review during the upcoming fiscal year, and who did not participate on an IMPEP review or attend IMPEP new member training during 2005, will be required to attend this training. Affected Agreement State team members will be notified individually by the IMPEP Project Manager.

Specific travel instructions will be provided to interested Agreement State staff as they are named. Any questions regarding the IMPEP Team Member Training should be directed to the point of contact listed below.

POINT OF CONTACT: Aaron T. McCraw
