Subject: Re: ADAMS # for Qly Report

It was accessible this time around.
Thanks,
Tim

The access number is correct. While the doc will be publically available, there is a short holdup time before it is actually available to the public once it is put in ADAMS. According to the ADAMS profile, the report will be available on 8/18/06, probably by COB...try again on Monday...if you can't access then, its our problem and we'll fix it.

Hello John,
Yesterday on the 3:30 call you referred us to the ADAMS system for the Quarterly Report. I have been unable to call up the document. The ADAMS # I have been using is ML062260074. I expect I probably just transposed a couple of numbers. Could you verify it for me?
Thanks,
Tim
