MW-58-71-(001)	02-Aug-2006 9:37	08/22/2006			ND

Notes:

- "Prelim Sr" is an analysis that provides an initial approximation of strontium concentration.
"Sr-90" results are the official concentrations and should replace the initial "Prelim Sr" result.
- ND = (Non Detect). Sample results less than 3 standard deviations or less than the MDC.
- Recent sample results shown have been returned in the last 7 days.
