Subject: Fwd: Re: Sampling of Lafarge Monitoring Wells

Mark, correct me if I'm wrong, but I think that if the State assures that the security seal is attached, then the sample may be turned over to the licensee for shipping. If that is the case, then we just have to assure that the State has enough security seals for the pureed fish sample.

Patrick,
Jerry Collins from the NYS DOH will be observing collection of the Lafarge well samples on the 12th. As soon as the video arrives we will get it to him to view. He is aware that he needs hardhat, safety shoes and glasses, and a bag lunch. Please contact him at the e-mail address below and provide directions to the Lafarge entrance where he is to meet up with the other participants. If you could provide a contact name and cell # in case of any problems that would be helpful also.

On the subject of split chain of custody,
- Will there be C-of-C forms he can utilize or should he bring his own, and
- We need to make arrangements for him to hand off the NRC split to one of the resident inspectors at the end of the sampling effort (or a means to ensure valid C-of-C through use of security seals and C-of-C form).

ixc14@health.state.ny.us

Let me know if there is anything I can do to facilitate this process.
(Note: I am out tomorrow, and am in training next Mon - Th, so any arrangements will need to be finalized today.)
Thanks,

Gentlemen,
We'll be sampling the Lafarge monitoring wells on Tuesday 9/12 at 0800. I'll need to know the names of the personnel who plan on accessing Lafarge property to observe so I can inform Lafarge Security of our arrival.
Also- Tim did you receive the Lafarge Safety DVD? If so please have the personnel who are coming on Tuesday to review the DVD.
Thanks,
Patrick Donahue
