Ok, no problem I'll call Mark right now. Thanks for the heads up.

Pat

Subject: RE: Sampling of Lafarge Monitoring Wells

We have arranged with the NRC that either one or the other of us will be at split sampling activities, and will collect a split for the other when needed (reduces duplication of effort). In this case we will take care of theirs. the same goes for the fish split sampling effort next Friday. Alex Czuhanych will be observing for DEC, and will provide C-of-C for a split for the NRC.

I haven't had direct contact with the NRC resident inspectors, but believe John White had notified them. If you could touch base w/them to verify that they are aware of the arrangement Mr. White and I have worked out, I would appreciate it.

Thanks,
Tim

Tim,

I'll email Jerry and provide directions, my phone number, etc. As for COC forms I can provide them or if you like we can use the DOH COC's. As for the NRC's split I believe that they will be in attendance, although I do not have confirmation at this time. If necessary I will also provide seals.

Pat

Patrick,
Jerry Collins from the NYS DOH will be observing collection of the

B-22

Lafarge well samples on the 12th. As soon as the video arrives we will get it to him to view. He is aware that he needs hardhat, safety shoes and glasses, and a bag lunch. Please contact him at the e-mail address below and provide directions to the Lafarge entrance where he is to meet up with the other participants. If you could provide a contact name and cell # in case of any problems that would be helpful also.

On the subject of split chain of custody,

- Will there be C-of-C forms he can utilize or should he bring his own, and
- We need to make arrangements for him to hand off the NRC split to one of the resident inspectors at the end of the sampling effort (or a means to ensure valid C-of-C through use of security seals and C-of-C form).

jxc14@health.state.ny.us

Let me know if there is anything I can do to facilitate this process.
(Note: I am out tomorrow, and am in training next Mon - Th, so any arrangements will need to be finalized today.)

Thanks,

Gentlemen,

We'll be sampling the Lafarge monitoring wells on Tuesday 9/12 at 0800. I'll need to know the names of the personnel who plan on accessing Lafarge property to observe so I can inform Lafarge Security of our arrival.

Also- Tim did you receive the Lafarge Safety DVD? If so please have the personnel who are coming on Tuesday to review the DVD.

Thanks,

Patrick Donahue
