RE: NRC License Termination Request  
NRC License #45-31050-01

03036943

To Whom It May Concern:

Please accept this letter as a request for termination of the NRC radioactive materials license for our facility (45-31050-01). We plan to terminate this facility on February 1, 2007. We will be merging with Jefferson Cardiovascular Associates to form Cardiovascular Associates of Charlottesville, PLC at this time. There has been a license amendment request submitted by Jefferson Cardiovascular Associates to reflect this merger and relocation.

We intend to remain fully operational in the interim and will comply with all elements of our current license commitment. We will perform a close out survey that will be forwarded to your office before we vacate this address. All equipment, sealed sources and documentation will be transferred to the new facility.

Should you have any questions regarding this application, please feel free to contact me.

Sincerely,

Joshua Fischer, M.D.  
Radiation Safety Officer
