Reference: License #13-09649-02

Dear Ms. Casey:

1. Resend our request to replace Dr. Ayman Ghoniem as the facility RSO with Edward Johnston.
2. Resend our request to add Edward Johnston as the authorized medical physicist, since it is our understanding that you do not add Medical Physicist to license unless required by license activities. Mr. Johnston will be doing the medical physics duties for our brachytherapy program.
3. Resend our request to amend the license to authorize the Cesium-137 sealed sources leak test interval not to exceed three years. The manufactures three year leak test interval as authorized in your regulation will be followed.

REC'D OCT 31 2006

RECEIVED OCT 31 2006

4. Resend our request to amend the license to remove Item No. 9, which excludes the use of aerosols. Aerosols are no longer excluded from 1-10CFR 35.200. and do not need to be separately named on the license.
5. Set the total possession limit of 8. C. to 1 curie and 8. D. to 1 curie.

The names of the manufactures with model numbers of all the sealed sources we now possess or expect to acquire authorized by our license will be sent to you within 30 days.

Sincerely,

Steve Sloan
