Subject: RE: Export Licensing for Foreign Nuclear Power Plants

Janice,

I had previously written to inquire about the availability of obtaining a letter stating that our application has been received and is in progress. Would that letter be available now that we have formally started the process? It would be helpful in proposal and negotiation stages of the contracts.

Regards,

Nathan Miller

Janice,

Just wanted to make sure you got the check we sent out last week and ask if there's any other information required as the export license application gets processed.

Janice,

A check is being sent out by FedEx overnight tonight to your attention. I attached a duplicate copy of the export application (marked as duplicate) so that it gets connected to the right paperwork. Thanks for your quick heads up on this, and we look forward to the processing of this application at your earliest opportunity.
