(NOTE: This will be used as the
Documents Title in ADAMS)

Summary: The licensee's response dated October 6, 2006, indicated that they are requesting a GL device (DGA-410) to be included in the specific license. I called the licensee to discuss this request and to inform that a GL device can not be listed on a specific license.

The licensee's consultant returned my call. He stated that they did not want the device to be included in the license, but the information was provided because Ron had requested all the services that ETI was providing to the licensee.

Action Required: Document and process the license
