SUBJECT: ACCEPTANCE FOR REVIEW OF BOILING WATER REACTOR OWNERS' GROUP (BWROG) TOPICAL REPORT (TR) NEDC-33178P, REVISION 0, "GENERAL ELECTRIC METHODOLOGY FOR DEVELOPMENT OF REACTOR PRESSURE VESSEL PRESSURE-TEMPERATURE CURVES" (TAC NO. MD2693)

Dear Mr. Bunt:

By letter dated July 28, 2006, the BWROG submitted for U.S. Nuclear Regulatory Commission (NRC) staff review TR NEDC-33178P, Revision 0, "General Electric Methodology for Development of Reactor Pressure Vessel Pressure-Temperature Curves." The NRC staff has performed an acceptance review of the TR NEDC-33178P, Revision 0. We have found that the material presented is sufficient to begin our comprehensive review. The NRC staff expects to issue its request for additional information by April 18, 2007, and issue its draft safety evaluation by November 28, 2007. The NRC staff estimates that the review will require approximately 330 staff hours including project management time. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between Fred Emerson and the NRC staff on November 2, 2006.

Section 170.21 of Title 10 of the *Code of Federal Regulations* requires that TRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, NRC staff hours will be billed accordingly.

Sincerely,

/RA/

Stacey L. Rosenberg, Chief
Special Projects Branch
Division of Policy and Rulemaking
Office of Nuclear Reactor Regulation

Project No. 691
