Summary:	<p>Needed confirmation that the licensee had moved RAM to the Manchester, CT facility from Rocky Hill, CT. The RSO stated that the licensee was asked to leave the Rocky Hill facility and had to put the RAM someplace secure so they moved it to Manchester, CT. The RSO indicated that the called the NRC when this happened and was told to send in the amendment request for a new location be added to their license. The RSO will be sending the latest leak test results for the sources which had been stored a the Rocky Hill facility. The Manchester facility will be used for storage only. The licensee will request another amendment when the facility has been modified and a permanent cell has been constructed.</p> <p>In addition, the licensee is not requesting that the Warren, PA facility be removed from their license at this time. They just wanted to notify the NRC that licensed activities are not being conducted at the Warren facility (no RAM is currently located at the Warren facility).</p>	
Action Required:	wait for leak test results and ok amend the license to remove the Rocky Hill facility.
