

November 7, 2006

Ms. Rebecca F. Smith-Kevern
Associate Director, Nuclear Power Technology
Safety and Security, Office of Nuclear Energy
U.S. Department of Energy
19901 Germantown Rd.
Germantown, Md. 20874

Dear Ms. Kevern:

On behalf of the staff of the U.S. Nuclear Regulatory Commission (NRC), I would like to express our sincere appreciation for providing three separate new reactor design technical training sessions at the DOE Germantown complex for our benefit.

Providing the opportunity for over 200 NRC staff for each training session to interface with the nuclear plant designers proved to be invaluable. For a number of staff this was a unique opportunity to hear about the new reactor plant designs and individual characteristics for the AP1000, Economic Simplified Boiling Water Reactor (ESBWR), and the U.S. Evolutionary Power Reactor (US EPR).

I would also like to recognize Meghan Goldman, your DOE event coordinator, for ensuring everything ran smoothly and efficiently. I have heard many positive comments on the three training sessions and I look forward to working together in the future.

Sincerely,

/RA/

David B. Matthews, Director
Division of New Reactor Licensing
Office of New Reactors
Nuclear Regulatory Commission

cc: William Borchardt, Director, NRO
Gary Holahan, Deputy Director, NRO
Meghan Goldman, DOE
