Do you see why the public is being driven crazy by the NRC?

Sorry for the delay Ms. Lampert. As I suspected was on the public website,  
but somehow profiled incorrectly.  
The problem was resolved and now can be found under the FR number (along  
with all of the public comments) and  
via ML061670101.

Alicia -  
OOOPS

Pilgrim Watch's larger filing still is not listed in the grouping  
referenced below - I am trying to update my website so would appreciate a  
simple link for readers.

Thanks,

Mary

Ms. Lampert-

Sorry for the delay in answering your questions, the answers are below.

Question 1: All public comments received by the NRC have been placed in  
ADAMS and are available to the general public.  
You can access all of these comments on the ADAMS advanced web search page,  
using the query fields, Docket Number: 05000293  
and Case/Reference Number: 71FR19554.

Question 2: The NRC environmental review team will meet with the public in  
the Plymouth, MA area regarding the Pilgrim environmental review in Jan.

2007.

During this meeting, NRC staff will present the findings of our environmental review, as well as take comments from the public on the Pilgrim draft supplemental environmental impact statement. All comments received during the Pilgrim Scoping period will be addressed in the Pilgrim Scoping Summary Report, scheduled to be issued late August 2006. The Scoping Summary Report will address comments received (via electronically or USPS/Express mail) during the April 14 - June 16, 2006 Scoping period; in addition to all comments provided at the public meetings held, May 17, 2006 in Plymouth, MA.

Please let me know if you have any questions.

Robert:

Regarding: Environmental Scoping:

As you know steps 1&2 have occurred here at Pilgrim - public meeting and deadline for opportunity for written comments.

What happens next?

1. When will public comments be placed on NRC's electronic library? I have looked with no success. If they are on Adams, please provide accession number.
2. Does the NRC meet again with the public and provide their rationale for denying a requested issue to be included in Pilgrim site-specific review? If so, when? If not, how does the NRC intend to reply?

Thanks and a Happy 4th week-end,

Mary Lampert
