**Subject:** Clinton nuclear reactor

To whom it may concern:

I want to voice my concern and strong objection to the construction of another nuclear reactor in Clinton. I know there are other renewable energy sources that are clean and cheap especially if supported by federal subsidies as is the case with nuclear reactors.

The problems associated with nuclear energy are staggering. The waste that is produced is lethal and interminable. Absolute safety in construction and maintaining that safety is unrealistic. There is also the extreme likelihood of sabotage in these days of terrorist threat.

Please reconsider your plans for construction of a second nuclear reactor in Clinton.

Sincerely,

Elsie Cadieux  
Normal, IL
