SUBJECT: DOCKETING OF COMMENTS RECEIVED PERTAINING TO THE  
DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT  
FOR THE NORTH ANNA EARLY SITE PERMIT APPLICATION (TAC  
NO. MC1128)

The U.S. Nuclear Regulatory Commission (NRC) strives to be an environmentally friendly agency. Therefore, the staff has decided not to mail paper copies of the 631 page comment document. The staff, in pursuit of upholding the agency's organizational value of openness, has gathered all the comments received by the NRC in a single document that will allow the public to conduct an efficient search of specific comments. The NRC received comments via the United States Postal Service and e-mail. Comments were also provided during the draft supplemental environmental impact statement meeting, conducted in Mineral, Virginia, on Tuesday, August 15, 2006. This document contains a total of 72 written comment letters and emails, and a copy of the transcript from the public meeting, ML062440240, on August 15, 2006, which together comprises the public record for *Federal Register* Notice (71 FR 46927).

The collection of comments can be viewed through the Agencywide Documents Access and Management System (ADAMS) using Accession No. ML063050749. To aid the public while searching for specific comment letters and emails, a set of indexes sorted by commenter name and written comment letter number, or by email title and email comment number is also available through the above-mentioned accession number or by using Accession No. ML063100046. The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams/web-based.html>; a link is provided to access documents through the Web-Based component of ADAMS. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's Public Document Room Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail at [pdr@nrc.gov](mailto:pdr@nrc.gov).
