Orval Baird
P.O. Box 87
Tendoy, ID 83468

SUBJECT: TRANSMITTAL OF PICTURES OF THE FORMER SALMON RIVER URANIUM DEVELOPMENT MILL SITE AND LIST OF ENDANGERED SPECIES IN THE VICINITY OF THE FACILITY.

Dear Mr. Baird:

During the week of June 5, 2006, staff from the United States Nuclear Regulatory Commission (NRC), United States Environmental Protection Agency (EPA), United States Department of Agriculture (USDA) Forest Service, and Idaho's Department of Environmental Quality visited your property as part of EPA's assessment to gather information about the existing contamination in your property, as well as the potential risks this contamination may pose to public health and safety, and the environment. During this site visit, the NRC staff took several pictures of your property. In a phone call on September 20, 2006, you requested a copy of some of the pictures taken during the site visit. You also requested a copy of the list of endangered species in the vicinity of the facility that the NRC requested to the United States Fish and Wildlife Services on August 10, 2006 (Accession Number ML062070084). This letter responds to your request. If you have any questions regarding the pictures taken or the list of endangered species, please feel free to contact me at 301-415-0193.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC's public website at the following address: <http://www.nrc.gov/reading-rm/adams.html> (The Public Electronic Reading Room).

Sincerely,

/RA/

Rafael L. Rodriguez, Project Manager
Decommissioning and Uranium Recovery
Licensing Directorate
Division of Waste Management
and Environmental Protection

Enclosures:

1. List of Endangered Species Provided by the United States Department of Interior Fish and Wildlife Services
2. Pictures of the former Salmon River Uranium Development Mill site

Docket No.: 040-03400

License Nos.: R-0230 (expired), P-4001 (expired)

cc: See Distribution
